

Dear all,

These days, we are very busy and we need your prayer.

Ka Yin's mother is still in hospital, from time to time she is not responsive. It is very difficult for Ka Yin, her father and her sister. Ka Yin decided to stop most of her work with the locals, to focus only on our family here and her family situation back home. Please pray for healing for her mother, strength and encouragement and hope for all.

Wu Fung is helping 2 of our staff to get visas. The process is long and tiring, and we are having problem with banks now. Please pray for favour.

Wu Fung has been doing online work for the past few months, it is encouraging. He sees people coming to Him almost everyday!! He will mobilize and help our team members to participate in it, and to explore more options and possibilities.

We have asked you to pray for the setting up of a permanent presence in a university for some time. We have to work through the bureaucrazy and it is tiring. The work had to stop in summer. We hope to restart the talk again. Please pray for divine appointment with key people, favour in their eyes, supply of funds and manpower necessary to make it a reality.

Wu Fung, Ka Yin
